**Subject:** HB4073

Hi Reprmentatives Franz and Dianda,

Michigan Alcohol Policy Promotimg Health and Safety (MAP) has concerns that MLCC and law enforcement agencies do not have enough resources to properly regulate all of the liquor licensees in the State currently.

It appears that this bill might make it more difficult to regulate these licensees if funding is reduced to MLCC and local communities.

Thanks for your attention in this matter and please submit this email as testimony since we are unable to attend the House Regulatory Reform committee meeting.
